

Bisous Announces NEW Pretty Darn Quick
Shabby, Crave, Hot, Rad, Grace & Yum!

TORONTO—January 5th, 2009 —Bisous has released six fresh PDQ scrapbooking paper and sticker lines designed by artist Suzanne Carillo. These new PDQ releases include 30 double sided, pre designed patterned papers, six “Album in an Afternoon” kits and six 12” x 12” coordinating sheets of chipboard shapes (each with over 87 pieces). Each line has its own unique style: hip, fun “Rad”; chic, weathered “Shabby”; funky, wild “Hot”; classic, traditional “Grace”; eclectic, colorful “Yum!” and elegant, romantic “Crave”. These PDQ products continue to offer scrapbookers and crafters the ability to create professional, economical and detailed layouts or projects in minutes without sacrificing quality or creativity.

“These are some of my best designs ever” said artist Suzanne Carillo, owner of Bisous. “Each page is an inventive collage filled with intricate, hand drawn details and layers of texture and color. I didn’t hold anything back when designing these lines and it shows.”

Versatility

“I like the versatility of PDQ. Each 12” x 12” sheet can be cut down to any size and it still functions beautifully,” said Jill Brush, scrapbooking enthusiast. “Each design element of a sheet can be cut out and used. I make the most of every single piece and don't let any of it go to waste. These multifunctional pages can be used for any event, birthdays, babies, Valentine’s Day, teenagers or heritage.”

Bisous (b-zoo) PDQ Product Availability

PDQ is the scrapbooking and crafting solution developed by Suzanne Carillo to save time and money without sacrificing professional results. The newest PDQ releases are available now.

Founded in 2001, Bisous (b-zoo) is the manufacturer and developer of quality innovative scrapbooking and crafting products. The company offers a wide range of products designed to offer economical and time saving solutions for scrapbooking and paper crafting.
